

## PEACE OF MIND

Project Lifesaver is a rescue program for Wood County's most vulnerable individual- for both children and adults with a cognitive impairment or medical condition that puts them "at risk" to wander away and become lost. With over 1500 successful rescues and counting, Project Lifesaver will continue to lead the way in recovering your loved one.

## Why Project Lifesaver?

---

Project Lifesaver uses radio technology to track a missing

loved one. Unlike other tracking device programs, Project Lifesaver is not affected by weather like GPS locaters. The tracking band can be located any where on the person and still provide a radio transmission.

Project Lifesaver has a proven record of locating lost loved ones in minute to hours instead of days from the time the rescue team has arrived. Project Lifesaver is a reliable, practical and affordable peace of mind.

## What is my responsibility?

Family members are required to provide 24 hour care for the Project Lifesaver client. They will also have to check the battery/transmitter at least once a day and once a month have the battery replaced by a member of the Project Lifesaver group at a predetermined location.

## What is the cost?

The cost is a minimum. At around \$25 a month, this covers the cost of the transmitter, replacement battery, transmitter tester. If you or your loved one can not afford the cost, members of Project Lifesaver will assist in finding funds available through various resources.

## Community Involvement

---

Project Lifesaver relies on a partnership with local law enforcement, fire and rescue agencies and other public and private organizations that assist people with Alzheimer's and other mental disabilities. Project Lifesaver is not just for the elderly, but anyone with a mental disability.
